VIOLEK

2018

www.violek.eu

ETYMOLOGY

VIOLEK: The distinctive title of the factory of Lekakis family which began its activity in the 1970s, in the first place practicing traditional brass foundry techniques for the production of metal components. Today the tradition passes to the third generation integrating the constant study of contemporary aesthetics, a fact that equips all VIOLEK products with a balanced combination of design and functionality.

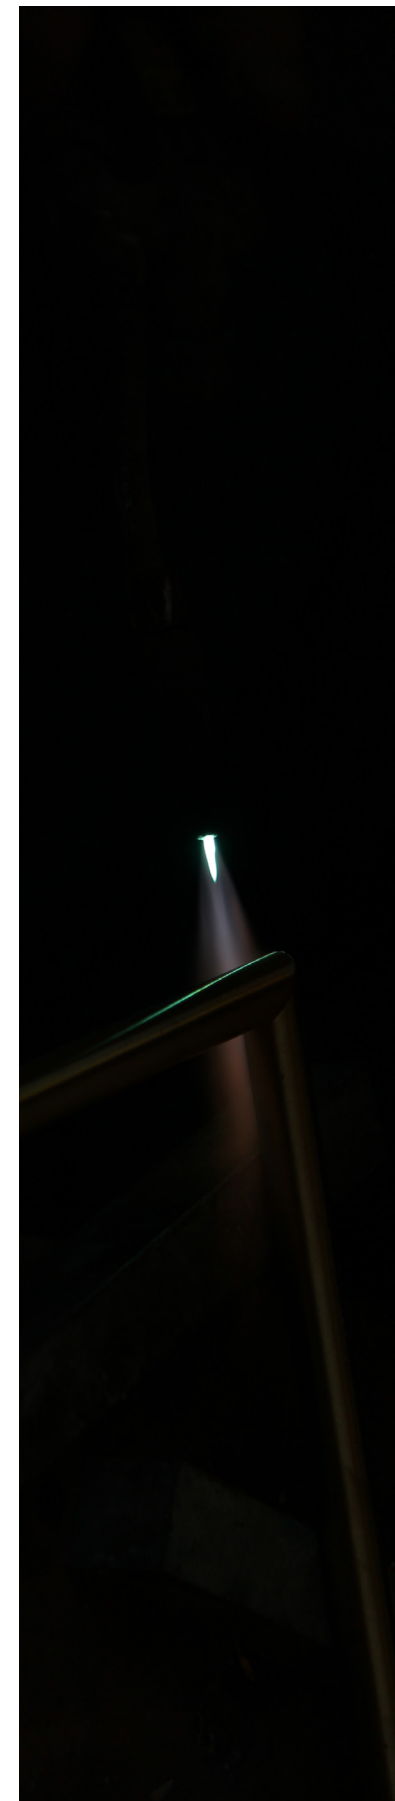

Our wide range of products is in line with the needs of modern bathroom decoration and lives up to a certain standard. It combines generations of traditional craftsmanship with revolutionary designs along with the finest materials. Apart from the quality control on every phase of the vertically organized production line, the quality of VIOLEK products is a matter of culture and moral sense. Since we have to respect our heritage and at the same time develop our position as an international company in the field of bathroom design, do not expect VIOLEK products to be anything less than small pieces of art.

VIOLEK

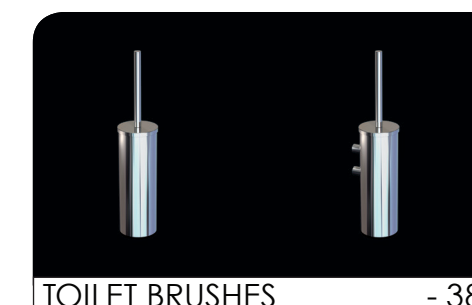

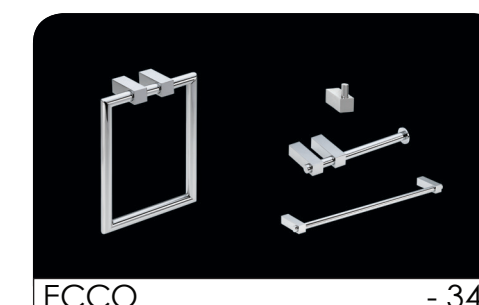

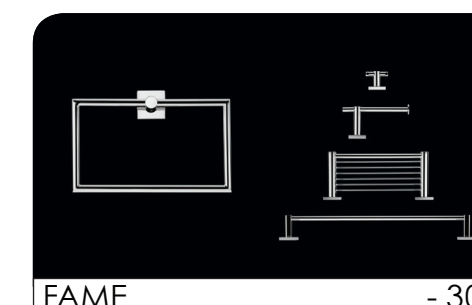

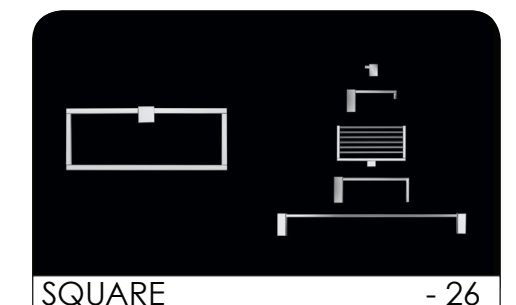

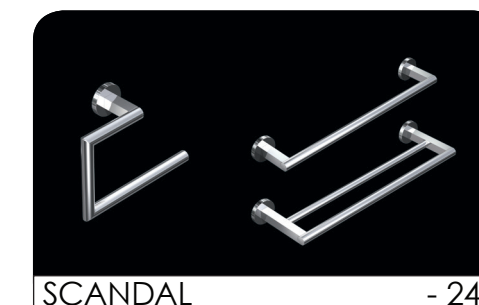

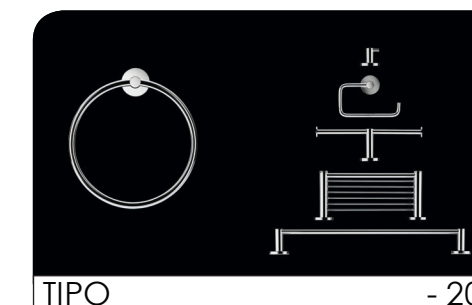

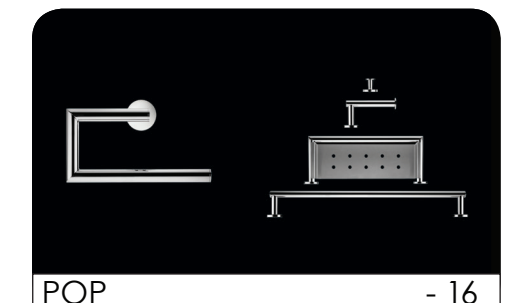

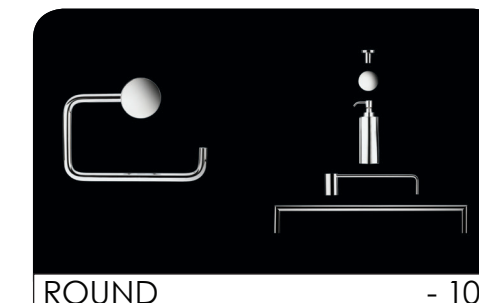

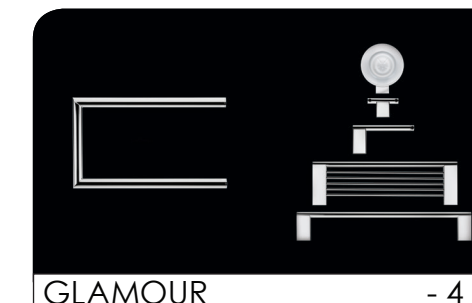

INTERPRETATION

Taking into consideration our long presence in the international market our guarantee is not defined by our certificates alone but is also characterized by our large network of collaborations. The selection of well-trusted suppliers that provide us the highest standards in raw materials, offers VIOLEK the capability of creating outstanding products. Our clients who choose our bathroom accessories are the ones that confirm our precise design and the accurate manufacturing procedure we follow.

Each VIOLEK product is exclusively made of the purest brass. The perfectly polished metal is prepared by our experienced craftsmen for the plating process which provides layers of protection and a flawless, shiny result to each piece. Maintaining several stages in production offers a fifteen year guarantee to our products. Following the appropriate care instructions, however, will make the finish of the chrome plated surfaces last for a lifetime.
